

B2E Mobile ATM Services

ABOUT US

B2E is a private company headquartered in Greenville, SC that offers **mobile financial services**. We address the needs of those looking for alternative financial services, specifically event planners and hosts who need to offer cash services on their premises, end-users wanting a bank brought directly to their location, and employers of the un-banked. Each audience is looking for new, alternative processes to obtain money faster and more conveniently than traditional checks and traditional banks.

Consider B2E as a niche provider in the banking industry. **We specialize in mobile, portable, on-the-go financial transactions brought right to your door.** Our alternative financial services save time and are cost affordable, faster, and more convenient than a traditional bank. Our Mobile ATMs are focused on locations where an ATM does not currently exist and/or where technology is prohibitive. Usually, the B2E primary audiences for Mobile ATMs include temporary venues or locations that operate on a part-time limited schedule, like a festival, racetrack, or county fair. Our Payroll and Check Cashing Services and Pre-Paid Debit Cards are targeted towards employers, as a benefit they can offer their employees.

B2E (Benefits To Employees) is an industry specialist when it comes to understanding alternative financial services. Our staff comes from high-tech backgrounds, is well educated, and 80% are fluent in both Spanish and English. We are subject matter experts in this unique industry.

MOBILE ATM SERVICES

All over America people gather at ball games, festivals, stock car races, rock concerts, flea markets, and county fairs and need access to cash. These venues sometimes lack electricity and/or phone lines in key areas, meaning credit cards are not accepted. Showing up with no cash may mean no concessions, no entry, or no fun at many of these venues.

As for promoters or sponsors of these functions, well **they want to have ATMs on site.** Not only does it result in a higher customer experience and satisfaction rating, but also a large percentage of cash withdrawn is spent right there at the event. As a matter of fact, reports from bankrate.com indicate that **75% of the money withdrawn at an event ATM is spent at the event.**

Event hosts and organizers pay nothing to utilize the B2E Mobile ATM, and no special equipment is required when the B2E Mobile ATM arrives on site. As an extra bonus, B2E also offers rebates to non-profits, based on the quantity of transactions. We will bring the B2E Mobile ATM to your event at your requested time and day, and for multi-day events, we can leave it on premises overnight or remove it and replace it the following day. For those who withdraw cash, a nominal surcharge fee applies which is typically lower than standard fees charged by much larger financial institutions.

Listed below is what B2E Mobile ATM services offer and what is not required from an event host. You'll be pleased to see how easy and simple it is to utilize a B2E Mobile ATM. B2E also offers a rebate program for non-profit organizations, sharing a portion of the fees collected to benefit charities.

Why should you select a B2E Mobile ATM versus one from our competitor?

- > All we need is a parking space.
- > No internet, telephone line, or electricity is required.
- > B2E provisions the vans with cash, as well as the replenishment of cash.
- > Our mobile ATMs communicate wirelessly.
- > B2E is bonded and insured and can provide you with this documentation.
- > There is no cost to the event organizer.
